

CONTAMINATION CONTROL WORKSHOP

@ Politecnico of Milano – Energy Department

OCTOBER 18th 2024 MILAN, ITALY

THE WORKSHOP WILL BE REPEATED ON OCTOBER 19TH FOR THE ICCCS YOUNG PROFESSIONALS GROUP

WHY A CONTAMINATION CONTROL WORKSHOP AND A HANDS-ON TRAINING?

The study and practice day will be held at the Contamination Control Research Facilities of the Department of Energy at Politecnico di Milano, with lectures and demonstrations by academia and industry experts.

The course is organized by the HVAC Lab of Politecnico di Milano in collaboration with ASCCA and ICCCS within the frame of International Symposium of Contamination Control, ISCC2024. www.iscc2024.com

THE GOALS OF THIS UNIQUE EVENT ARE

- Stay ahead of the curve with the latest trends in contamination control
- Gain hands-on experience with new methods and technologies
- Acquiring theoretical and practical concepts in a single place
- Network with other professionals in the field

THE VENUE

Contamination Control Research Facilities, HVAC Lab, Energy Department, Politecnico of Milano.

<https://www.energia.polimi.it> Campus Bovisa Sud, Building BL25 – Via Lambruschini 4, Milano, MI, Italy.

AGENDA

Politecnico of Milano one day experience from 8:30 AM – 18:00 PM.

MORNING SESSION

- The science and technology behind the afternoon hands-on training session. Theoretical approach to practical problems.

AFTERNOON SESSION

- Practical experience on 5 parallel training stations

Workshop closing networking reception enjoying Aperitivo at Energy Department.

Workshop has been designed for a limited number of attendees: Max 32 PAX.

EACH WORKSHOP STATIONS

- 8 attendees
- 90' hands-on training/station

TOPICS

- Environmental Monitoring and Contamination Sampling Systems & Strategies
- FIT (Filter Integrity Test) with Photometer + OPC (Optical Particle Counter)
- Source Strength Characterization (humans, devices & components, equipment). Total, Bio and UFP (Ultra Fine Particle) particles. OPC vs Particle Deposition test
- CFD (Computational Fluid Dynamics) simulation, air ventilation, smoke Test in White Box cleanroom facility
- Augmented Reality applied to Isolators and enclosure systems

WHY A COMPANY DO SPONSOR THIS WORKSHOP?

- Elevate your company's visibility by sponsoring this event, reaching a targeted audience focused on contamination control and manufacturing
- Highlight your company's offerings directly to a relevant audience, demonstrating how your technology, product and services contribute to effective contamination control strategies
- Overall, sponsorship of a study and practice day on contamination control can be a valuable investment for businesses. By demonstrating his commitment to quality and safety, staying ahead of the curve, and building relationships with other professionals in the field, companies can gain a number of benefits from supporting this event and last but not least to meet Young Professionals that might be in the future part of your organization.
